STABLER'S DIARRHEA CORDIAL

Is a pleasant Mixture, compounded in agreeme with the rules of Pharmacy, of therappeutic agents long known and celebrated for their peculiar of ficacy in caring DIARRHOEA, and similar at factions of the system. In its action, it ALLAY-SAUSES and produces a healthy condition of the LIVER, thus removing the cause at the same time that it cures the disease.

STABLERS ANODYNE CHERRY EXPECTORANT

Is confidently recommended to Invalide, a vx-en-PASSED by MEN preparation, for the cure of COUGHS, HOARSENESS, and other forms of Council Council Education (Council Council C CROUP, CONSUMPTION in an Early Stage, and for the RELIEF of the Patient even in Advanced Stages of that Fatal Disease.

It combines, in a scientific manner, remedies of long esteemed value, with others of more recent discovery; and besides its scothing and toni-qualities, acts through the skin gently, and great offiacacy, for the cu.e of this class of diseases.

The valuable Medicines above named have recently been introduced, with the approved of a number of the Madical Prophesics in the City of Baltimore and elsewhere, and in practice have succeeded most admirably in curing the discuser for which they prescribed. They are offered to the Country Practitioner, as Medicines which he can in all repects depend upon, as prepared in agreement with the experience of some of the most learned and prejudicious P pysicians, and especially serving his convenience, who cannot so readily as the City Pysician, have his own prescriptions compounded by a Practical Phar-
